CLARITYOPS · OPS SYSTEMS

Your freelancers only know what you wrote down.

A sponsor handoff problem from a client call last month.

ONE EPISODE, MANY PROMISES

Every sponsor wants something different.

01 A mid-roll ad read

02 A link in the description

03 A tag or collab on social

04 A logo on the clip

THE GAP

The founder knew every deal. The editor did the work.

Seven to ten social clips per episode, each with its own sponsor rules.

WHAT WE BUILT

Put the rules where the work happens.

01 Sponsors linked to each episode

02 Requirements on the episode

03 One editing view

04 Shared with the freelancers

THEN THE NEXT QUESTION

“

I would like to see the revenue per episode.

PODCAST FOUNDER, DISCOVERY CALL

THE SAME DATA, ONE MORE VIEW

Now he can see revenue per episode.

By show, by month and by sponsor. Plus every placement that hasn't been paid yet.

YOUR MOVE

If a contractor has to ask you, the system has a gap.

Where does your team lose the details between the sale and the delivery?
